Collegium Peregrinus in the Danube valley

Social Entrepreneurship

Module

Paradigm shift

”I think there are good reasons for suggesting that the modern age has ended.

Today, many things indicate that we are going through a transitional period, when it seems that something is on the way out and something else is painfully being born.

It is as if something were crumbling, decaying and exhausting itself – while something else, still indistinct, were arising from the rubble.”

(Vaclav Havel, 1994, Philadelphia)

Knowledge

·*Knowledge is coordinated action emerging from consensus.*
·*Knowledge is not an object or data you can own, it is a process inspiring participation.*
· *(Humberto Maturana)*

Learning

- Our knowledge today is an answer to questions asked yesterday to the problems of of the past.
- (Arie de Guus, Royal Dutch/Shell, ex-Head of Planning dept.)

Future School Scenarios-OECD

- **Status quo school**
  - Robust&beurocratic school system
  - Extension of the marketing model
- **Reschooling scenarios**
  - Schools as basic community centers
  - Schools as learning organisations

Danube College

Vision: a coherent, cooperative region in harmonious and sustainable development

Where?

Upper Danube, Upper Tisza, Duna-Drava

How?

Enhancing emergent leadership capacity of young people to respond the 3P challenges by becoming compassionate, skilled and inspiring leeadership

Action learning
Social entrepreneurship

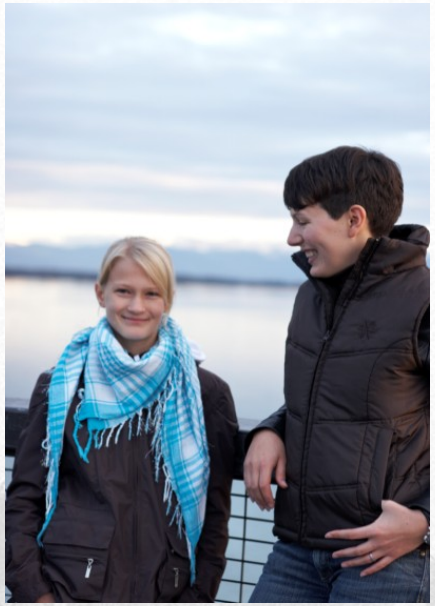
Rock Your Life is a programme that has already proved powerful and empowering in mobilizing young people to reach out with compassion, skill and inner leadership towards students that may well need this inspiring connection. Their approach completely enhances the Collegium Danubius local development programs.

Background_why RYL! matters

link between a young person's prospects and his/her socio-demographic background is remarkably strong
very selective school system, allowing little educational mobility
pupils with a disadvantaged background therefore hardly ever make it to university
university students know little about the pupils' actua
of life and discouraging prospects
these two groups are mostly isolated from each other although only a few years apart age-wise and being part of the same society

ROCK YOUR LIFE!

ROCK YOUR LIFE! International



Our Vision:

sustainable effects for pupils, students, companies society as a whole

A society…

in which educational opportunities are irrespective of the social milieu

in which social mobility is a reality in every young person's life.

in which connections exist beyond and across established milieus

and in which everybody is able to unfold their individual potential.

A society in which (especially young) people are able to literally ROCK their lives.

Our programme_one on one coaching_ comprehensible and effective

pupils from socially disadvantaged backgrounds are coached by a collegiate ROCK YOUR LIFE! student-coach over two years
they get empowered to unfold their individual potential and to realize job or education related goals in a self-responsibly and self-conscious way
university students complete a professional qualification programme to support and accompany pupils on their way to employment or higher education
a wide network of partner companies complements the individual coaching to improve the pupils' chances of a successful apprenticeship /job entry

Effects of the ROCK YOUR LIFE! programme

students as potential future decision-makers become part of a social movement that stands for social mobility and equal access to education

perspectives are broadened and social skills get trained on both sides

schools receive support since their lack of resources does not allow for individual mentoring

contribution to integration, social mobility, equal opportunities and solidarity

Sacling up_ becoming an (inter)national educational movement

the ROCK YOUR LIFE! network currently comprises 27 local chapters throughout Germany (Berlin, Frankfurt, Cologne, Dresden, Hamburg, Munich…)
Local chapters are founded, led and organized be volunteer university students that seek to make sense and contribute to society
approx. 1,000 coaching relationships have been successfully initialized - hundreds more are to follow within the next months
learning experiences are rapidly spread throughout the network
a continuous process of improvement is implemented via various feedback, reporting and impact measurement structures
RYL! is now about to go international and we are spreading our vision und knowledge to young people in other countries

ROCK YOUR LIFE!‘s development

2009 2010 & 2011 2012

	2009	2010 & 2011	2012

Participants	90	1100	2500
Volunteers hours/year	5.000	65.000	150.000

ROCK YOUR LIFE! international

Vision

young people anywhere in the world rock their lives and unfold their potential - irrespective of their social background

mission

empower and train young people around the world to find their own unique answers to the educational challenges they face in their own country

goal

ROCK YOUR LIFE! goes international over the next few years, responding to requests from any country

- à the pogramme gets adapted to specific local needs and circumstances
- à the founding organization in Germany passes on

Educational and Social Learning Journey Budapest

We offer 30 scholarships for motivated, inspired and courageous students who want to face the educational challenges of Budapest, develop ideas on how to change the situation and conceptualize a project plan that helps them manifest their ideas in the world.

Educational and Social Learning Journey Budapest

Between 18th and 23rd November two of the founders of RYL will lead a workshop series for young adults on how to become a social entrepreneur in the educational landscape themselves
